9 March 2016

Dear Pauline,

Disposal of school playing fields at Chiltern Edge Foundation School 931/4092

I refer to the governing body's application for the Secretary of State's consent to dispose of playing field land at the above school site.

I am writing to confirm that the Secretary of State has determined, in exercise of the powers under section 77 of the School Standards and Framework Act 1998, to consent to the disposal of playing field land at the above schools.

The Secretary of State's consent is given on the understanding of the capital proceeds to be spent as outlined in the application dated 4 December 2015.

May I also remind you of the need to apply for planning permission, where applicable; if planning permission is required you should contact Sport England and your local planning authority. This consent does not constitute planning permission and should not influence planning authorities when they consider the future needs of the community for open space, sport and recreation.

If the school's governing body subsequently decides not to proceed with the proposal, please inform me as soon as possible.

Yours sincerely,

Theresa Hoggart
